Location of stdout.txt

Inhaltsverzeichnis

- 1 Windows
- 2 Linux
- 3 Mac

If Transport Fever crashes you can find information about the crash reason in the file stdout.txt.
Please note: If you start Transport Fever again, it will overwrite any old file and the crash reason is lost.

1 Windows

For Steam Users:
`<Drive letter>\<... Steamfolder ...>\userdata\<userid>\446800\local\crash_dump\`

GOG-User:
`<Drive letter>\Users\<User Folder>\AppData\Roaming\Transport Fever\crash_dump\`

2 Linux

Steam Linux
`~/.local/share/Steam/userdata/<user-number>/446800/local/crash_dump`

GOG Linux

`~/.local/share/Transport Fever/crash_dump`

3 Mac

Steam Mac
`~/Library/Application Support/Steam/userdata/<user-number>/446800/local/crash_dump`
