Tracks, signals and overhead lines

Basically there are 2 types of tracks.

The simple one that is available from 1850 - endless
The high-speed one that is available from 1927 - endless

Regular rail details:

- Maximum speed: 120 km / h
- Available: permanently
- Also available with overhead lines from 1910 - endless

High-speed rail details:

- Maximum speed: 300 km / h
- Available: from 1927
- Also available with overhead lines from 1927 - endless

While building the railroad, the potential at the respective position limit appears.
From the game start to 1950 semaphores are available. A modern light signal is available from 1925.
